WAITER PANEL PAGE

DESCRIPTION – RESERVATION PAGE	LOGIC & FUNCTIONALITES	SOLUTION
DASHBOARD & OPEN ORDERS	1. Dashboard – DONE 2. NEW ORDER – DONE 3. OPEN ORDERS – should be limited to WAITERS only orders 4. BILL SPLIT – NOT DONE 5. TRANSFER TABLE – NOT DONE	1. Waiter should only see open orders concerning him/her should not see other waiters open order. NO TABLESS ORDERS/ROOM SERVICE ORDERS OR TAKE AWAYS. 2. BILL SPLIT – already put the small boxes to highlight what to split create a right tab like the one in FOLIO SPLIT with an arrow in the middle pointing to what selected table the bill is going to by clicking an arrow the waiter will split the bill. 3. Similar functionality should apply to TRANSFER TABLE.

OPEN ORDERS	1. When cashier settles the bill the order on the waiter panel is not cleared from the OPEN ORDER TAB unless the waiter clicks complete. What if does not click complete will it remain OPEN all the time?	1. Once the cashier settles waiter specific order the order should automatically move from out of OPEN ORDERS TAB. This is to allow DAY CLOSE to go smoothly.
ORDER SUMMARY	1. Waiter should see order summary related only to him or her and not see other waiter order summary. 2. CALENDAR – MISSING. 3. MODE OF SETTELEMNT COLUMN – SHOULD BE ADDED	1. Limit order summary of waiter from seeing other waiters settled orders or open one's. WHICH IS DONE but TABLESS ORDER/TAKE AWAY AND ROOM SERVICE TEND TO APPAER ON ALL WAITERS ORDER SUMMARY WHICH IS WRONG SHOULD APPEAR ON CASHIER ORDER SUMMARY 2. Add a calendar on o.rder summary and keep current date as default date. Th waiter should be able to see her orders from previous dates. 3. ON ORDER SUMMARY ADD A COLUMN TO SHOW HOW THE ORDER WAS SETLLED BY CASHIER EITHER BY CASH/MOBILE OR BANK OR CREDITOR ACCOUNT OR ROOM POSTING.
TAKE ORDERS	1. Some order can be processed without selecting a table 2. When selecting a table how does the waiter know the table is selected after clicking cause the only action is the table directly appears on the order	1. From the waiters side an order should be sent only once a table is selected. 2. When a table is selected add a TICK sign to show the user that the table is selected without clicking multiple times not knowing the table chosen is selected or not to confirm.

MY PROFILE	3. PALE KWENYE KU CHANGE PASSWORD HAITO VURUGA VITU?? 4. Does the admin or manager get to see the new password.	3. Proposal remove ability to change password by the waiter or cashier or chef.
