Open Purchase Orders - Done

Stock Value - ni stock value ya items in stock au ??

NEW ITEM

1. Kweny ku add items some items share department weka feature ya kuwe na mulitple department on one item kama vile sabuni.
2. Lets find a way to sync menu items anazo ona waiter na stock items wakat item ikiwa registered. LOGIC YA if item falls under category ya Beverage kuwe na option ya ku sync item kwa mtu wa store na mtu wa Bar
3. Kuna menu items kama capucino , juice ambazo haziwezi kuwa linked na store lkn if na item uses an SI unit ya BTL inafaa syncing ilo stock movement iwe relevant.
4. Kwenye PANEL ya waiter akiwa ana search for a menu item aweze kuona of an item is in stock kama iko out of stock asiweze kugongea hiyo order na akijaribu ikatae ili tuweze ondoa negative stock kwenye stock ledger

Item kama soda inaagizwa kwa CRT lkn distribution across departments inaweza toka kwa BTLs

Relevant example nimetoka ku purchase ABSOLUTE VODKA 375ml ila kwny IN STOCK

haijongezeka relative kwa nilicho purchase

Na pia AMARULLA 375ml

UNITS

1. Kwenye Back Office Je kuna sehem ya ku register SI UNITS, CURRENCY TYPE
2. sababu SI UNITS inafaa kuwa dropdown menu
3. Kuna some items zina multiple SI UNITS mfano sabuni inaweza kuja kwa KGS, GLN , LITRES inafaa kuwa dropdown add na ku allow multiple SI UNITS ambazo zitakua useful muda wa kuandaa PURCHASE ORDER NA GOODS RECEIVED NOTE

From the picture below sehem ya item (blank space) inafaa user iwe kama search bar akianza

kuandika item isom kea chini ili aweze select item iweze match na items registered.

Na only registered items ndo zinawezwa agizwa.

SI UNIT inafaa kuwa drop down based on the item selected mfano user aki search for absolute vodka inakuja ile registred item aki select SI UNIT inafaa kuwa automatic based on which SI units the item is registered with.

SECTION YA REPORTS

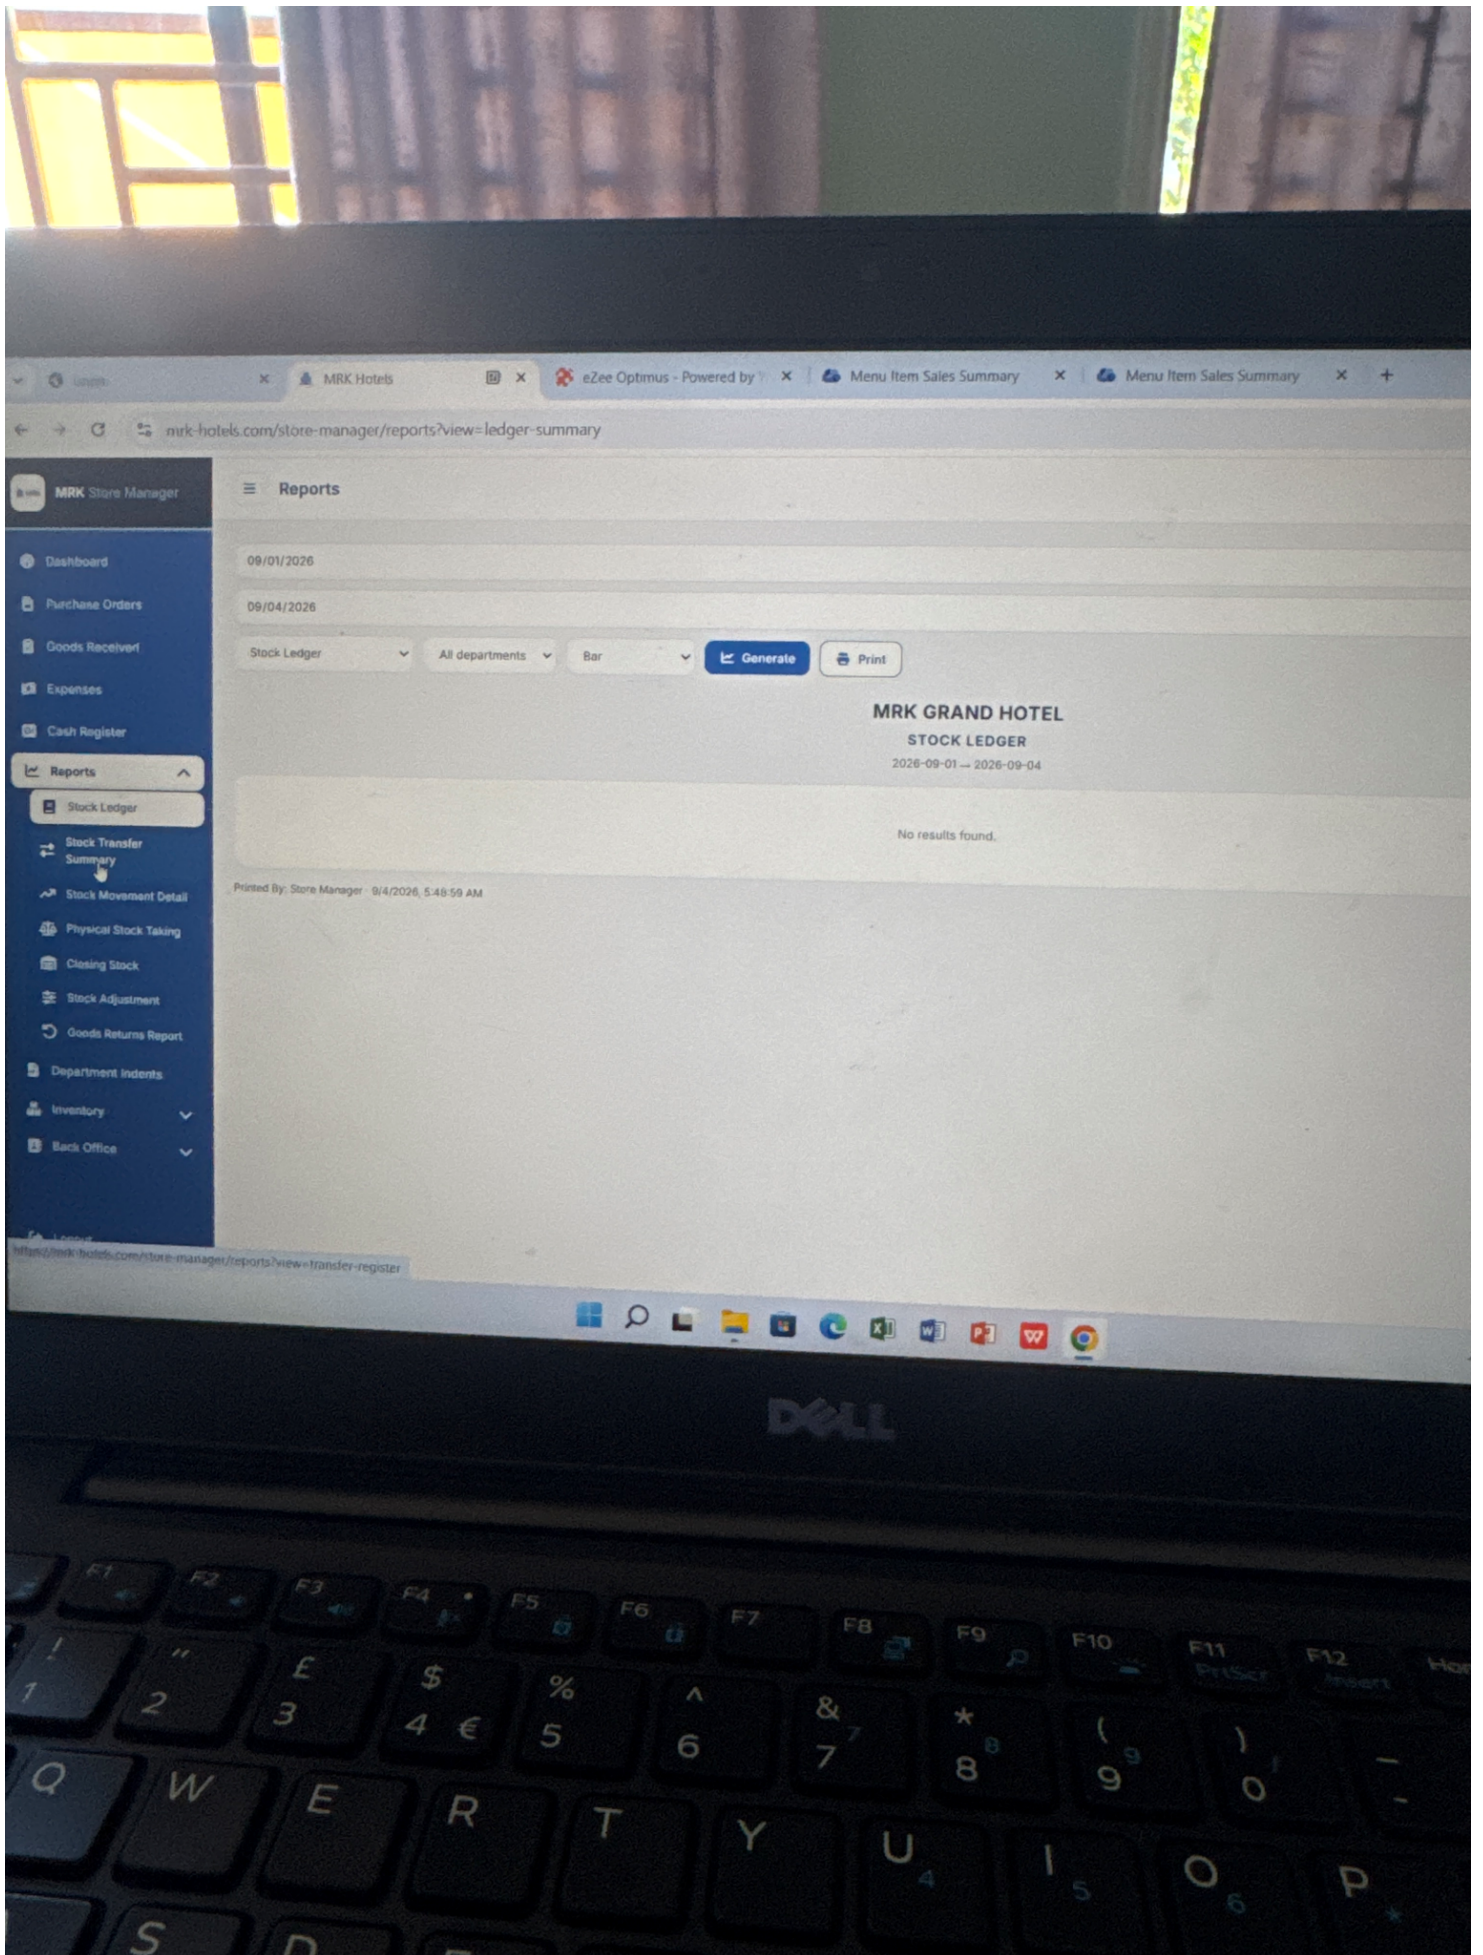

Baada ya receive item kupitia GRN stock movement na stock ledger iko same EMPTY apo ndo inakuja significance ya syncing items zitokee kwene department gan

Ukiset item itoke STORE NA BAR

that means kwny reports za STORE na BAR zitakua na hiyo item synced together ndo in create stock movement.

SECTION YA REPORTS

Like the picture below reports haifai kuwa opened within the page

Lets take the EZEE Style uki generate report ina kulepeleka kwny . php page
