House keeping Data can be exported in CSV format - DONE

But Exporting House keeping Data to excel imefanya data iwe un readable

LAUNDRY

Apo kwenye New Laundry order

Item - Blank space should be searchable based on registered items that can be served by the laundry person.

Unit price should be automatic based on selected cloth type to avoid random pricing

Therefore creation of page to register CLOTH TYPE eg T -shirt cotton , T shirt Linen ,Shorts Cotton , Shorts Linen

EACH CLOTH TYPE SHOULD HAVE

WASHING PRICE

IRONING PRICE

DRY CLEANING PRICE

IF THE USER SELECTS ITEMS PRICE AND SERVICE TYPE PRICE SET AT EITHER WASHING , IRONING OR DRY CLEANING SHOULD BE AUTOMATICALLY BASED ON THE SUGGESTED LOGIC

SETTLEMENT OF LAUNDRY BILLS IS NOT SET

EITHER POSTED TO ROOM OR BEING PAID

Room posting on Laundry Bills should be based on Occupied room. Can not post bill to a vacant room
