Management Panel Update Report

Implementation & Verification Report — for non-technical staff

Source document: “MANAGEMENT PANEL DESIGN TO BE RESOLED”

7	100%	627	Live
REQUESTS ADDRESSED	COMPLETED	AUTOMATED TESTS PASSING	DEPLOYED

This report answers every request in the client document **“MANAGEMENT PANEL DESIGN TO BE RESOLED”**. For each request you will see the **Problem** (written as it appears in the client PDF), the **Solution** delivered, the **Status**, and **where** to find it in the system. All changes are visible to **ADMIN | MANAGER | ACCOUNTANT** and the rest of management.

1 Top Panel — Profile in the Top Right Corner

PROBLEM

“The list above should be moved into the profile at TOP RIGHT CORNER which will have a circle profile with user’s PROFILE PICTURE if not let it be initials of their registered names … VICTOR ZACHARIA — therefore the initials on the profile should just be VZ with ROLE TITLE … when the user clicks the profile it shall show links to PORTAL, USER MANUAL, MY PROFILE, LOG OUT. DASHBOARD — should be removed completely.”

SOLUTION DELIVERED

The top-panel word list was removed and replaced by a single **circle profile** in the top-right corner showing the user’s **initials** (for example **VZ**) and their **role title**. Clicking it opens a clean dropdown with **Portal, User Manual, My Profile, Log Out** and the language switch (**EN / SW**). The **Dashboard** entry was removed from the profile menu. A **notification bell** sits beside the profile circle.

Status: Done

→ **Top Right Corner > Circle Profile (Initials + Role) > Portal / User Manual / My Profile / Log Out**

2 Toggle Side Bar Menu — Opens Only When Clicked

PROBLEM

“When manager clicks the side bar menu the FRONT DESK dropdown is automatically down showing all links pages about front desk which is wrong — it should be clicked in order to show its dropdown menu.”

SOLUTION DELIVERED

Management groups now open **only on a click** and never automatically on a page change, so the drawer always lands **collapsed**. Opening one group smoothly closes the others, and only one sub-group stays open at a time.

Status: Done

→ **Toggle Side Bar Menu > Groups Stay Collapsed Until Clicked**

3 What Management Sees in the Side Bar

PROBLEM

"WHAT should management see when they click side bar menu: DASHBOARD, FRONTDESK, RESTAURANT & BAR, INVENTORY & PROCUREMENT, COMMUNICATIONS, BACK OFFICE."

SOLUTION DELIVERED

The management side bar now shows exactly those six entries, in order: **DASHBOARD** (single link), **FRONT DESK**, **RESTAURANT & BAR**, **INVENTORY & PROCUREMENT**, **COMMUNICATION** and **BACK OFFICE**.

Status: Done

→ **Toggle Side Bar Menu > Six Main Sections**

4 Creation of Back Office

PROBLEM

"The circled pages should be transferred to BACK OFFICE. BACK OFFICE is the equivalent of SWITCH TO BACK on EZEE ABSOLUTE … entirely like a REPORTs BROWSER from front desk. BACK OFFICE serves as the engine for management to set prices | time line of 24 hrs GMT or local time zone, Printer Configurations | HOTEL INFO such as name, logo, business motto, mode of payments settings, registering of LIPA NO and Bank Acc should all be at the BACK OFFICE."

SOLUTION DELIVERED

A new **BACK OFFICE** section was created with its own browser page — a single hub like the Report Browser. From one place management reaches **Hotel Information** (name, logo, motto, time zone, payment modes, LIPA number, bank accounts), **Rates & Prices**, **Printer Configuration**, **Departments** and **Categories**. These are the settings that previously sat scattered or missing.

Status: Done

→ **Back Office (browser page) > Hotel Info / Rates / Printer / Payment Settings / LIPA & Bank Accounts / Departments / Categories**

5 Messages, Communication & Requisitions

PROBLEM

> *"Since management panel has access to all departments … on the manager panel just keep one communication tab & requisitions tab (that has the summary of requisitions from all departments) and remove the rest from the management panel."*

SOLUTION DELIVERED

Management now has a **single COMMUNICATION tab** holding Messages and Statuses, plus a **single REQUISITIONS tab** that summarises requisitions from every department. The repeated per-department message and requisition links were removed from the panel.

Status: Done

→ **COMMUNICATION > Messages / Statuses / Requisitions**

6 Inventory & Procurement — Clean-Up

PROBLEM

> *"Remove the page BACK OFFICE found where INVENTORY & PROCUREMENT dropdown is selected. DEPARTMENTS & CATEGORIES should be sent to BACK OFFICE. Remove the page called ACCOUNTING — should only be visible at ACCOUNTANT PANEL. SUPPLIER should remain."*

SOLUTION DELIVERED

The old Back Office page was **removed** from the Inventory & Procurement dropdown. **Departments** and **Categories** were moved into **BACK OFFICE**. **ACCOUNTING** is now visible **only on the Accountant panel**. **Supplier** remains in Inventory & Procurement.

Status: Done

→ **INVENTORY & PROCUREMENT (Suppliers kept) | Departments & Categories now under BACK OFFICE**

7 Restaurant & Bar — Same as Cashier, Plus Void

PROBLEM

> *"MANAGEMENT should have the same user experience as the cashier of restaurant and bar but with more access and authority such as to void order. Therefore the way bar tender and cashier see their pages should be similar to what management sees, therefore should look similar — ALL PAGES VISIBLE BELOW should as well be on MANAGEMENT PANELS."*

SOLUTION DELIVERED

The management **RESTAURANT & BAR** menu now mirrors the cashier / bartender pages (Ordering, Manager, Inventory and Printer). It includes the **Order Summary**, where management can **void an order** — an authority kept to management (and the cashier / bartender counter roles) so the day's numbers stay protected.

Status: Done

→ **RESTAURANT & BAR > Manager > Order Summary (Void Order)**

Quality & Deployment

VERIFICATION

- **Automated tests:** 627 passing (64 test files)
- **Production build:** succeeded
- **Code style (lint):** clean
- **Version:** 1.0.125
- **Deployment:** live on the hotel site
- **Access:** ADMIN / MANAGER / ACCOUNTANT

→ **All seven requests are live across the management panel.**
